ReLondon

Why the paper is being presented

The paper is presented in order to provide an update on activities since the last meeting of the Board.

Report

Top issues

Local Authority Support

It was reported at the last Board and previous Audit Committee meetings that the Local Authority Support programme cannot deliver a number of projects that have been affected by the COVID-19 pandemic and response. These projects are: short term lets; waste composition analysis protocol testing; and three weekly residual waste collections. The total budget allocated to these projects in the Delivery Plan is £130,000. We will use most of this budget this year to develop an Ultra Low Waste Neighbourhood project following up those who were successful with the open call for project partners that we undertook earlier in the year.

Mayor's Green New Deal Fund

Following the distribution of emergency grants and circular pilot grants, ReLondon continues to deliver business support through an external consultant to London SMEs. We have provided either grant funding or business advice to 58 SMEs so far.

The circular economy directory, co-funded by the Mayor's Green New Deal Fund and Relondon was soft-launched on November 15th. This beta version with limited features will be tested by selected circular SMEs and investors in the coming weeks to get feedback before the hard launch planned on January 31st.

Budget setting and strategic future planning

A tender was issued to find a partner to help facilitate the development of future scenarios for ReLondon beyond the life of the current business plan. Unfortunately we did not find a suitable partner through this process so we are going to re-engage the market.

In the meantime we will look for a suitable date early in the new year to hold a workshop with board members to discuss the future budget and help the team develop ideas for the development of the 2021-22 Delivery Plan.

Staffing

Staff turnover

Since the last meeting of the Board the following staff changes have taken place.

Leavers

Andrea Crump (Circular Economy Strategic Advisor) Purva Tavri (Built Environment Researcher)

ReLondon

Starters

Sharif Rivera appointed as Financial Controller Aparna Reddy and Philippa Lockwood (interns) Lara Pohl-Martell (Business Advisor) Rebecca Child - Communications & campaigns lead (London Recycles)

Moves

Lalenya Maroulakis has been appointed to the new permanent, position of Digital Product Manager.

Future starters

Jo Rogers has been appointed Director of Operations and Governance and will join ReLondon at the end of January.

Rachel Singer will start as a Circular Economy Research Assistant at the end of November.

Berthe Biyak will start as HR and Project Delivery Executive in early December.

The following positions are vacant.

- CIRCuiT Economic Analyst (part time) 6 month fixed term/secondment), recruitment is ongoing.
- Senior Business Advisor in the Business Transformation Team.
- Community Manager in the Business Transformation Team. A new fixed-term position (Jan 22 Dec 22) to manage the matchmaker platform experience & content.

Communications and publicity

Press releases:

The following press releases have been distributed since the last Board meeting:

- **Circular pilots grant funding** (Green New Deal) 21st September 2021 a news release announcing £390k funding to 33 London-based SMEs to develop new circular products and services.
- Love Not Landfill pop-up 12th October and 1st November 2021 two releases (one listings, one news) to announce the third charity pop-up taking place in Angel Islington from 11th-14th November. Second release contains poll findings from a survey of 16-24 year old Londoners on fashion habits.
- Food material flow analysis 2nd November 2021 launch of 'London's food footprint' report at event at COP26; announcement of new 'circular food pioneer projects' as part of Food Flagship Initiative; and of commitments to act by Mayor of London and ReLondon.

A coverage log is provided in Appendix 2, including opinion articles placed through the year and coverage from January 2021.

Events:

Event focus over the past two months has been on COP26 and the Love Not Landfill pop-up. Highlights for this period include:

- Housemark Housing Association Gemma Scott presented on recycling from flats to a large group of housing associations and property professionals.
- **Smiley Talk** Pauline Metivier presented at this online event to sustainability professionals on creating circular cities.
- COP26 we ran our own successful event to launch 'London's food footprint' in Glasgow; Andrea Charlson hosted and presented a webinar as part of the UK Green Building Council's programme of activity; Pauline Metivier took part in a panel in the Blue Zone run by UNFCC on zero waste and best practice in cities; and Dr Liz Goodwin presented on global food waste and loss as part of the Sustainable Innovation Forum programme.

Full detail is given in Appendix 3.

Podcast:

A full update is provided in the Programme Update paper.

Dashboard Project Commentary

Detailed updates on programmes are included in paper 4. The dashboard is attached at Appendix 1. Commentary below details project change highlighted on the dashboard.

<u>Ultra-Low Waste Neighbourhood (ULWN) and Mayor Future Neighbourhoods Fund</u> The ULWN concept has been developed as part of ReLondon's action to support in the green recovery and develop the low carbon circular economy. ReLondon was named as a supporter on two of the local authority second round applications. Unfortunately, neither of these boroughs were successful in their bids. ReLondon is currently working with the GLA to explore ways that it can support the successful boroughs, Camden Council and Royal Borough of Kensington and Chelsea. Officers are also considering how the ULWN project could still be deployed and are working with other boroughs keen to explore the concept. As noted above, we have identified around £100,000 of underspend within the Local Authority Support programme that we will allocate to this work area.

Low plastics zone network development

Based on research conducted earlier this year on the impact of, and action being taken to tackle single use plastics in London, officers have commenced conversations with key stakeholder about establishing a London-wide knowledge sharing platform to connect action tackling single use plastic across London

Material flow analysis

Following the successful securement of a government funding to deliver the textiles material flow analysis by mid-2022, this project is now on track.

25/11/21 - 1 **Chief Executive Officer's Report**

ReLondon

Textiles 2030

Because of resources constraints due to the departure of a member of staff in September and other priorities picking up, we have decided, in collaboration with WRAP, to put on hold the development of a project that was aiming at supporting Textiles 2030 signatories (corporate fashion brands and retailers) delivering circular business model for fashion in London. We expect to kick of the scoping and definition of this project during the next financial year, which would align with the broader Textiles 2030 programme roadmap that only plans for the first circular pilot projects with signatories to be delivered in 2023-2024.

ReLondon

Audit Committee Activity

The Committee, chaired by Cllr Guy Senior, met once on 11 November 2021 since the last meeting of the Board. The following items were discussed:

Q2 Finance Report

The Committee reviewed and approved the Q2 Finance report (attached at Appendix 4), including a revised format for the Management Accounts showing forecasts for the year end. This forecasts a net programme underspend of approximately 9%.

HR Update

The Committee received an update on staffing changes, which are reported above.

Risk Register

The Committee reviewed the corporate level risk register. No significant changes were made since the previous review.

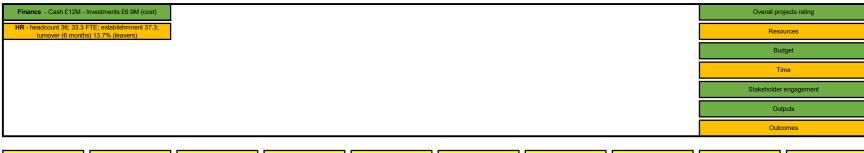

Scheme of Delegated Authority (SODA)

The Committee agreed proposed changes to the SODA to include the newly established position of Financial Controller. As changes to the SODA are required to be approved by the Board, the Revised SODA is attached at Appendix 5 and the Board are recommended to approve the amendments highlighted.

For the 6 months to 30th Sep 2021 ReLondon has an overall 4.35% overspent variance for Programme expenditure and 102% for investments. For Local authority support, Internal resources were effectively used to reduce costs and various projects faced delays due to pandemic situation. Business sector support and Business transformation is showing an overspend variance of £421k. However, the YTD budget figure of £175.9k above includes income for CIRCuIT and AL/ERDF totalling £328.5k which we have not yet received. Excluding these fundings, Business sector support and Business transformation overspent by £93k. Communications and behaviour change closely followed the budgeted expenditure with £8k underspent variance. Central costs currently showing an overspent variance of £179k. This was due to additional expenditure on temp staff and dilapidation costs. Both rent and temp staff costs will reduce going forward and we expect to see an overall underspent from Q3. Revenue income is above budget by £240k. But this mainly due to timing issues as fundraising and consultancy services is difficult to budget between the quarters. Investment income made up of interest income which remains stable, and any investment write off will be included in Q4. The large variance in investments (102%) is mainly due to the budgeted expenditure being in the P&L (for additional investments) and the actual expenditure being in the balance sheet. We are ahead of our target on investment expenditure. At the end of Q2 we spent £1.4m compared to the budget of £1.1m.

LWARB Income and expenditure commentary

1. Local Authority Support (LAS)

Overall, there is an underspent of £283k for Local Authority Support at the end of Q2. The budget is profiled evenly across the four quarters/financial year, but project planning and then project deployment mean that the majority of spend naturally falls into the later part of the financial year once project is live, so project spend is at the back end of the financial year. This has been further compounded by Covid restriction delaying project deployment and, in some instances, we have decided to cancel projects that had been planned at the start of the year. Furthermore, we have also been successful in delivering one-to-one charged for support to a number of London boroughs redirecting capacity to these projects.

Staff costs - At the end of Q2, the staff costs showing an underspent variance of £123k. The staff budget underspend is due to a combination of 1) being two staff below full complement for both Q1 and Q2 (with one grade 5 starting 1st Sept, and the other grade 5 starting 13th September), and 2) the staff budget being inflated above required budget demands.

For Q3 the LA support team will be up to a full staff compliment of seven. Staffing budget of £165k per quarter was based on historic data. Under previous years business plans the programme was jointly funded by WRAP and under this arrangement a percentage central staff costs were recharged to the programme budget.

Research, innovation & development (RID) - Much of the research work has been internally resourced and in commissioning in the two quarter, deployment was also delayed due to continued COVID lockdown restrictions, spend is forecast to increase in later quarters as commissioned work completes. Additionally certain projects require external match funding to proceed, officers continue to explore match opportunities but project such as the commercial waste data project will not proceed until appropriate match funding is secured.

Focus area projects (RL; FAP) - Most of the work on focus area projects in Q1&2 was internal resource and planning, as project enter the live phase in later quarters spend will increase. Delivery was however delayed due to continued COVID lockdown restrictions, impacting project viability.

Capacity building (CB) - Delivery here has been through internal resources to date, so little to no external spend has been needed this should change as the year progresses. However, this is likely to come in under budget.

Service advice & support (SA&S) - Work in Q1&Q2 was internal resource and planning, however delivery of a number of service support project were heavily delayed/impacted by the continued COVID lockdown restrictions, impacting project viability - some of these projects have now been cancelled for this year and a revised budget forecast has been prepared. Additionally significant officer time has been taken up delivering 1-2-1 charged for consultancy support projects for individual boroughs which have brought in income for ReLondon.

Circular directory (CD) costs – Variance due to the budget split evenly across the four quarters. Professional fees for reports to be incurred from Q3.

2. Business and sector support (BSS) & Business Transformation (BT)

Overall overspent variance of £422k is mainly due to the CIRCuIT and AL/ERDF funding not being received. Excluding the funding lines, the variance is £93k.

Staff costs - At the end of Q2, the management accounts show staff costs overspent by £104k. However, this is mainly due to the new presentation and staff time recharges to GND, CIRCuIT and ERDF lines. Combining all staff cost within Business and sector support (BSS) & Business Transformation (BT), we have an underspent of £49k at the end of Q2.

CE Week (CEW) – actual cost closely followed the budget. We expect a £4k underspent by the end of the financial year.

Research – The management accounts showing an underspent variance of approx. £15k to the end of Q2. For the full year we expect £20k underspent to budget as one of the projects - the jobs and skills research will be fully delivered in Q1 of next financial year so part of the costs (£20k) will need to be paid in 2022/2023. We expect to pay for Food MFA approx. £25k in Q3. Methodology project has a budget of £40k and we expect the cost to be incurred in Q4.

Commercialisation (Commerc) – actual cost closely followed the budget.

Investment in knowledge (IiK)+ Circular Economy Outcome Fund: £10k will be used to fund the development of knowledge outputs and £30k has been allocated to develop the Circular Economy Outcome Fund project. We expect the costs to be incurred later in the year.

Corporate engagement (Corp Eng) - Cost as planned in the budget.

3. CIRCuIT

CIRCuIT Staff costs – We expected the CIRCuIT staff costs to be lower than the budget for two quarters due to delay in recruiting secondee, internal staff allocations.

CIRCuIT Project expenditure - Cost as planned in the budget.

CIRCuIT Funding - We are expecting to receive this funding however there has been a delay. Hopefully will receive by end of next quarter.

4. GND

GND Staff costs - Overspend compared to original estimated budget but still underspent against GND budget on the management accounts. We utilised £17k underspend from last year and front-loaded costs for one staff member into 21/22 (contract due to expire in May 22 after the end of GND - difference to be covered by Circuit)

GND Project expenditure & GND Funding - In Q1, grants of £305k was paid to 37 SMES. In Q2, £292.5K was paid to 33 eligible SMEs. Variance of £58k due the way budget allocated evenly across four quarters (timing issue).

5. AL / ERDF

AL / ERDF Staff costs - Underspend will be carried over to next year's delivery plus extension to Mar 2023. Please note original £467k is ERDF budget (£367k) plus underspend from 20/21 (~£97k). Staff changes and reallocation of staff to GND/Islington resulted in underspend in 21/22 which will carry into 22/23 and a programme extension to March 2023.

AL / ERDF Project expenditure - Cost as planned in the budget to Q2.

AL / ERDF Funding - We expect the match funding from last quarter likely to be paid Oct-Dec (Q3).

6. Communications (Com) & Behaviour change (BCC)

Actual spent was mostly in line with the budgeted amounts. At the end of Q2, the management accounts showed we underspent by £8k. This is a timing issue and further invoices for activities is expected in Q3 for which we have already raised purchase orders.

7. Central Staff costs

Central staff costs are in line with the budget at the end of Q2 with a variance of £3k (1%).

8. Office expenses

The office expenses is showing an overspent variance of £90k. This is mainly due to the temporary staff costs for office move and finance support up to September. No further office move support or finance support costs to be incurred from Q3 and expect the variance to drop significantly.

9. Other overheads

Other overheads include reversal of bad debt provision which we provided in 2021 accounts. In Q1 we received the payment for the outstanding invoice and therefore the provision was reversed.

10. Office Rent

Office rent is currently showing a £51k variance at the end of Q2. We started renting our new office from July and we paid rent for both offices in July. Also, we paid dilapidation costs of £42k for the previous office. Q3 and Q4 will reflect the savings made in rent.

11. Professional fees

Professional fees is showing an overspent variance of £36.5k and this mainly relates to the organisation restructuring fees paid to the end of Q2.

12. Revenue programme

Resource London is showing the fundings received for Ecosurety project.

Fundraising includes £31k received from C&A foundation and Quarter 2 ERDF claim of £41.5k

Sponsorship income received was for CE week. The £30k Love not Landfill pop up shop was invoiced in Q3 and this will be showing in the next report.

13. Investment income

Investment income received in both quarters relates mainly to our GLA account balance.

14. Investment expenditure

Impairments or a permanent fall in value of investments will be reflected in the accounts in Q4 and any expenditure on purchasing additional investment is shown in the balance sheet. The budgeted total includes expenditure on investment "additions" which we are showing in the balance sheet. At the end of Q2 we budgeted to spend £1.1m. Our actual investment expenditure to Q2 is £1.4m (£1.4m to Greater London Investment Fund in Q1 and £16k to in

Circularity European Growth Fund in Q2). Therefore, at the end of Q2 we were ahead of our target.

LWARB Balance Sheet detail and commentary

- 1. In Q2, £16K was invested in in Circularity European Growth Fund.
- 2. Cash at bank and in hand balance fell by 8% to £12.2m (from £13.3m). See cash flow section for detailed explanations.
- 3. Trade debtor is nil at the end of Q2.
- 4. Other debtors decreased by £15k (7%) in the period. Other debtors include prepayments, which decreased by 29% (£15k) in the period. This was mainly due to the release of prepaid IT and other subscription expenses in the quarter. Other debtors also include accrued ERDF income of £41.5k for Q1 and accrued interest income of £11k for Q2.

- 5. Trade creditor balance decreased by £73k in the period. Of the £40k trade creditors outstanding at the end of Q2, most of the outstanding invoices were less than 30 days old and they were paid after the period.
- 6. The payroll liabilities balance of £100k is made up of PAYE & Pension liabilities and the payment was made in Q3. The salary cost for Sep was higher than June and therefore the liability was higher.
- 7. Deferred income balance remained the same.
- 8. Accruals increased by £1k in the period to £67k. This was mainly due to £12k temp staff costs were accrued in this the period.
- Provisions total includes both provision for committed expenditure and Green New Deal (GND). The provision for committed expenditure balance remained the same. However, GND provision reduced by £293k in the period. This is because £293k grants were approved and therefore released to the P&L.
- 10. The general fund balance is made up of the balance at the end of the last period £13,570k less the loss for the period of £789k (adjusted for rounding differences).

Cash Flow (£000s) London Waste and Recycling Board For the 6 months ended 30 Sep 2021

| | Period | Notes |
|---|---------|-------|
| Net Profit/(loss) | (787) | 1 |
| (Increase)/decrease in investments | (16) | 2 |
| (Increase)/decrease in trade debtors | 1 | 3 |
| (Increase)/decrease in other debtors | 0 | 4 |
| (Increase)/decrease in prepayments | 15 | 5 |
| Increase/(decrease) in trade creditors | (75) | 6 |
| Increase/(decrease) in credit card balances | 0 | 7 |
| Increase/(decrease) in payroll liabilities | 29 | 8 |
| Increase/(decrease) in deferred income | 0 | 9 |
| Increase/(decrease) in accruals | 14 | 10 |
| Increase/(decrease) in Green new deal pro | (293) | 11 |
| Net cash inflow (outflow) | (1,112) | |
| Opening cash | 13,364 | |
| Cash movement above | (1,112) | |
| Closing cash | 12,252 | |

- Net profit/loss from "operations". This includes both paid and unpaid items. The notes 2 11 below are adjustments to the amount to explain the cash movement in the period.
- 2. Net cash outflow of £16k to Circularity European Growth Fund.
- 3. Small invoices from previous quarter paid.
- 4. No change in the quarter.
- 5. Decrease in prepayments adjusted as it is not a cash transaction. This amount includes accounting adjustments to release prepaid invoices.
- 6. Trade creditor movement of £75k is for the invoices paid between the quarters.
- 7. No change in the quarter.
- 8. Payroll liability movement £29k added back as it is a non-cash item.
- 9. No change in the quarter.

- 10. Accruals movement of £14k added back as it is a non-cash item.
- 11. Decrease in GND provision reflects the grants made to SMEs in the period.

Opening and closing cash reconcile to the bank account

ReLondon (London Waste and Recycling Board) Scheme of Delegated Authority

Preamble

The London Waste and Recycling Board Order allows the Board to authorise an individual member of the Board, an employee of the Board or a Committee of the Board to carry out any of its functions that it chooses.

All decisions are required to be made by the Board if they are not delegated to another person or committee either in this Scheme of Delegated Authority or by specific decision of the Board.

This Scheme of Delegated Authority was adopted by the Board on <u>30 September 25 November</u> 2021 and supersedes all previous versions.

Policy

Authority for making all decisions on the Board's policy sits with the Board. ReLondon's main expression of policy is the Business Plan which it is required to publish each year.

Staffing and Remuneration

Authority for changes to the permanent establishment, pay and pay policy is delegated by the Board to the Audit Committee. Appointment of temporary staff (< two-year appointments), whether contractors or employees, is delegated to the CEO.

The day-to-day management of all staff (including recruitment of new staff) is delegated to the Chief Executive Officer to operate under the policies and procedures as agreed by the Board and/or Audit Committee (for example, the Pay Policy and other policies agreed in the Employee Handbook).

Budgets

Overall budgets for ReLondon's programmes and operations are agreed by the Board through its business plan. Subsequent decisions on how budgets are deployed are delegated to the Chief Executive and the Senior Management Team, subject to the approval limits set out below.

Virements

• Any virements between approved Business Plan budget lines below £50,000 shall require the approval of the Chief Executive Officer and will be reported to the next meeting of the Audit Committee.

- Any virements between approved Business Plan budget lines of between £50,000 and £100,000 shall require the approval of the Audit Committee at the next Audit Committee meeting.
- Any virements between approved Business Plan budget lines over £100,000 shall require the approval of the Board.

Funding Agreements

The following criteria for entering into inward funding agreements are to be applied:

- If the project for which funding is sought is within the scope and time horizon of the current business plan, and the cost to ReLondon of any funding (i.e. match funding) is within the Chief Executive's delegated authority, the decision to make an application should be for the Chief Executive to make.
- If the project is within the scope of the current business plan, but reaches beyond its time horizon, approval should be sought from the Board Chair.
- If the project is outside scope of the business plan or significantly outside of the time horizon (eg more than three years beyond the business plan period), approval should be sought from the Board.

Approval of Expenditure

The tables below show the maximum spending authorities (in pounds sterling, including VAT) for different programmes. These limits apply to the ordering of goods and services as well as to the paying of invoices.

Further Delegations

Those to whom spending authority has been delegated may further delegate authority others within their teams. Such onward delegation is not included in this SODA but is included below for information.
